

May 13, 2009

For Immediate Release:

Susan Lauer, Principal of Aspire Consulting has completed and received certification for administration and interpretation of the "Attribute Index". This decision making assessment allows Aspire Consulting to bring this valuable tool to more customers. The Attribute Index provides organizations with a powerful way to maximize their human capital-their people. The Attribute Index is unique in the market place as it is based on work that is said to have done for social science what Newton did for natural science. It is based on deductive rather than inductive processes. The Index has been proven and validated through separate studies for over 20 years

Aspire is dedicated to helping companies and organizations in the Greater Hudson Valley and Connecticut discover their potential and get results that are important to them. Aspire's team assists in building and/or implementing strategic plans, and aligning the people, processes and systems that support necessary change, transform leadership and sustain success.
